

California Cannabis Track-and-Trace System

Free Public Workshops | January and February 2018

Join us at one of our Introduction to California Cannabis Track-and-Trace (CCTT) System workshops for an overview of the program that will be used statewide to record the inventory and movement of cannabis and cannabis products through the commercial cannabis supply chain—from cultivation to sale. **All commercial cannabis licensees operating under a state-issued Annual License will be required to use the CCTT-Metric system.** (In-depth CCTT-Metric system user training will be provided via webinars at a later date.)

The CCTT-Metric system integrator, Franwell, Inc., will explain how the system works and how it will be used by all state cannabis licensees, including those with licenses for cannabis cultivation, manufacturing, retail, distribution, testing labs, and microbusinesses.

The workshops will not include any discussions about cannabis regulations.

If you have questions about program policies and regulations, please send them via email to CalCannabis at: calcannabis@cdfa.ca.gov

Advance registration is not required. Seating is first come, first served.

There will be two identical workshops at each location: 9am–12pm and 1pm–4pm

NORTHERN CALIFORNIA

- SACRAMENTO COUNTY**
JANUARY 9, 2018
 Sacramento Convention Center, Hall E
 1400 J Street, Sacramento, CA 95814
